The official cards are playable in the Warcraft 3 ladder and there is more in the standard game folder. Many people have also created new ones for card contests (the official cards originate in card contests) or just for fun. The official standard Warcraft 3 cards are not as balanced as the real ones, but they allow additional and extreme games. Cards like 6vs6, 8vs8 or FFA with 16 or 24 players are also possible! crownBlizzard releases official maps in the Battle.net patches and always adjusts the map pool a little. The Warcraft 3 Battle.net card pool offers the circuit cards you can choose from: in the 1on1, 2on2, 3on3, 4on4 and FFA BOARD map pool, you can always veto some cards that are not added to your search queue. Patch 1.29's new 2018 card pool combines the most popular cards of all time plus the most stable tournament cards of the official Warcraft 3 e-sport tournaments in the 1on1 card pool. The is that all Random Team cards as well as the FFA cards have got a great new mix. The actual cards are really varied and offer the most fun ever, it's of course the best card pool we've ever had in the Warcraft 3 life! Let's see if it will favor one of the races, or if everything will be Balanced. Fine.
